Scenarios	Expected result	Actual result	
class A12 section aa for the academic year 2015 is created and student is added then attendence is taken Daywise and attendence result is 100% and another section is bb created for same academic year 2015 and attendence is not taken for that section and student is moved from section aa to bb	can be moved and teacher can edit the attendence	can be moved and teacher can edit the attendence	
class A section CC for the academic year 2015 is created and student is added then attendence is not taken and attendence result is 0 and another section is DD created for same academic year 2015 and attendence is not taken for that section and student is moved from section CC to DD	no data can be moved	no data can be moved	
class A12 section aa for the academic year 2015 is created and student is added then attendence is not taken Daywise and attendence result is 0 and another section is bb created for same academic year 2015 and attendence is taken attendence is 100% for that section and student is moved from section aa to bb	can be moved and teacher can edit the attendence	can be moved and teacher can edit the attendence	
class A11 section ee for the academic year 2015 is created and student is added then attendence is taken Daywise and attendence result is 100% and another section is dd created for same academic year 2015 and attendence is taken attendence is 100% for that section and student is moved from section aa to bb	Both classes dates are taken and updated the attendence of the going grade it can be moved	Both classes dates are taken and updated the attendence of the going grade it can be moved	
class S14 a for the academic year 2015 is created and student is added then attendence is taken Session wise and attendence result is 100% and another class S14 b created for same academic year 2015 and attendence is not taken for that section and student is moved from section aa to bb	can be moved and teacher can edit the attendence	can be moved and teacher can edit the attendence	
class s14 aa for the academic year 2015 is created and student is added then attendence is not taken sessionwise and attendence result is 0 and another class s14 bb created for same academic year 2015 and attendence is taken sessionwise attendence is 100% for that section and student is moved from section aa to bb	can be moved and teacher can edit the attendence	can be moved and teacher can edit the attendence	
class A12 ee for the academic year 2015 is created and student is added then attendence is taken sessionwise and attendence result is 100% and another section is rr created for same academic year 2015 and attendence is taken attendence is 100% for that section and student is moved from section ee to rr	Both classes dates are taken and updated the attendence of the going grade it can be moved	Both classes dates are taken and updated the attendence of the going grade it can be moved	
class A section CC for the academic year 2015 is created and student is added then attendence is not taken daywise and attendence result is 0 and another section is DD created for same academic year 2015 and attendence is not taken sessionwise for that section and student is moved from section CC to DD	no data can be moved	no data can be moved	

class A12 section aa for the academic year 2015 is created and student is added then attendence is taken Daywise and attendence result is 100% and another section is bb created for same academic year 2015 and attendence is not taken Sessionwise for that section and student is moved from section aa to bb	can be moved and teacher can edit the attendence	no data can be moved and teacher can edit the attendence	
class A12 section aa for the academic year 2015 is created and student is added then attendence is not taken Daywise and attendence result is 0 and another section is bb created for same academic year 2015 and attendence is taken Sessionwise for that section and student is moved from section aa to bb	can be moved and teacher can edit the attendence	can be moved and teacher can edit the attendence	
class A12 ee for the academic year 2015 is created and student is added then attendence is taken Daywise and attendence result is 100% and another section is rr created for same academic year 2015 and attendence is taken sessionwise attendence is 100% for that section and student is moved from section ee to rr	Both classes dates are taken and updated the attendence of the going grade it can be moved	Both classes dates are taken and updated the attendence of the going grade it can be moved	
class b14 a for the academic year 2015 is created and student is added then attendence is not taken sessionwise and attendence result is 0 and another class b14 b created for same academic year 2015 and attendence is not taken Daywise for that section and student is moved from class b14 a to b14 b	no data can be moved	no data can be moved	
class b14 a for the academic year 2015 is created and student is added then attendence is taken sessionwise and attendence result is 100% and another class b14 b created for same academic year 2015 and attendence is not taken daywise for that section and student is moved from b14 a to b14 b	can be moved and teacher can edit the attendence	can be moved and teacher can edit the attendence	
class b14 a for the academic year 2015 is created and student is added then attendence is not taken sessionwise and attendence result is 0% and another class b14 b created for same academic year 2015 and attendence is taken daywise for that section and student is moved from b14 a to b14	can be moved with all present and teacher can edit the attendence	can be moved with all present and teacher can edit the attendence	
class b14 a for the academic year 2015 is created and student is added then attendence is taken sessionwise and attendence result is 100% and another class b14 b created for same academic year 2015 and attendence is taken daywise for that section and student is moved from b14 a to b14	Both classes dates are taken and updated the attendence of the going grade it can be moved	Both classes dates are taken and updated the attendence of the going grade it can be moved
